EXPERIENCE

Altair Interactive, Inc | Design Lead

As a small startup, my role at Altair has encompassed the full spectrum of design. I created our design system in Figma, wireframed user flows, designed global branding elements such as iconography and produced high fidelity mockups and prototypes to hand over for development and implementation on the platform.

July 2020 - March 2022

Maxweb Solutions Ltd | Senior UI/UX Designer

Worked on a variety of client projects doing both design and development for clients including Nike, Bentley Motors and many others.

2017 - 2020

Freelance | Designer & Front-end Developer

As a freelance designer and developer, I worked on a wide variety of client projects for companies around the world from small local businesses to large corporations covering multiple industries.

2006 - 2020
